Education

Bachelor of Computer Science (Artificial Intelligence)

Beni Suef University | Expected Graduation: 2025

Relevant Courses: Data Mining, Database, Artificial Intelligence

Experience

System Engineering Intern | IST Networks | August - September 2024

- Gained hands-on experience with on-premise and cloud systems.

- Optimized system performance and resolved technical issues.

Data Scientist Professional | Epsilon | July 2023 - October 2024

- Learned machine learning, statistical analysis, and modeling.

- Built regression, classification, and clustering models.

Machine Learning Engineering and Generative AI | Ministry of Communications | Sep 2024 - Mar 2025

- Trained in machine learning engineering and generative AI.

- Applied generative AI for solutions in NLP and computer vision.

Projects

Amazon Sales Analysis | Python, Pandas, Matplotlib

- Analyzed sales trends and identified key factors influencing revenue.

Chatbot for E-commerce | FastAPI, Dialogflow

- Developed a chatbot to assist with order tracking and placement.

Youssef Ahmed

Text Classification for E-commerce | Python, SpaCy

- Implemented machine learning techniques to classify customer reviews.

Technical Skills

Languages: Python, SQL

Libraries: TensorFlow, Keras, Scikit-Learn, Pandas, Numpy

Tools: Jupyter Notebooks, Git

Skills: Data Analysis, Machine Learning, NLP
